

What you need to know before you apply for debt cancellation

Before you complete the form, it is important to read this guide about:

- What applying for debt cancellation entails
- How to apply for debt cancellation.

You must use this form if you are applying for debt cancellation as a company, association, self-governing institution or foundation. If you are applying as a private individual or sole proprietorship, you must use form 51.005, which you can find at gaeldst.dk/blanket51005.

What does applying for debt cancellation entail?

When you apply for debt cancellation, you are applying for cancellation or reduction of your debt to public authorities. This means that you are applying for cancellation of all or part of your debt.

Your debt can be cancelled on social or other special grounds. This also applies if your financial circumstances are unresolved.

Limited partnerships, general partnerships and shipping partnerships are not eligible for debt cancellation.

Is a large part of your debt to private creditors?

If the company, association, self-governing institution or foundation has debt to other parties than public authorities, you can apply for a voluntary creditor arrangement with your creditors. A creditor arrangement is an agreement concerning how your debt will be repaid.
